08. Logo, Favicon & Brand Identity Maintenance — Section 8

09. Discount Coupons & Promotional Campaigns — Section 9

10. Daily Operations, Security & Launch Readiness Checklist — Section 10

01 LOGGING IN TO YOUR WEBSITE DASHBOARD

Your WEARLAB store runs on a customized, high-performance WordPress & WooCommerce infrastructure. You have complete administrative control over all aspects of the store.

> **ADMINISTRATIVE LOGIN CREDENTIALS**
>
> **Login URL:** `https://wearlab.store/wp-admin`
>
> **Username / Email:** *[Your Client Administrator Username]*
>
> **Password:** *[Your Secure Administrator Password]*

Step-by-Step Login Instructions:

1. Open Google Chrome, Microsoft Edge, or Safari on your computer or mobile tablet.
2. Enter `https://wearlab.store/wp-admin` into the address bar.
3. Enter your credentials and click **Log In**.
4. You will land on the WordPress Admin Dashboard. The dark left-hand navigation sidebar provides access to every tool described in this manual.

02 VISUAL HOMEPAGE EDITING (LIVE CUSTOMIZER)

Every single section on the WEARLAB homepage is connected to the visual WordPress Customizer. You can edit headlines, descriptions, button links, upload new lifestyle photography, and view real-time changes before publishing them live.

> **HOW TO ACCESS THE VISUAL EDITOR**
>
> In the left admin menu, navigate to **Appearance** → **Customize**. The left sidebar contains all WEARLAB controls, and the right window shows your live storefront. When finished making edits, click the blue **Publish** button at the top left.

SECTION NAME	CUSTOMIZABLE ELEMENTS	RECOMMENDED CONTENT & SPECS
Brand & Announcement Bar	• Ticker Enable / Disable • Announcements 1, 2, 3 • Animation Speed	Default highlights nationwide shipping, limited drops, and 100% combed cotton authenticity. Keep messages punchy and uppercase.
Hero Banner	• Main Headline • Hero Image Upload • Button Label & Link	Upload high-res lifestyle hero shot (`1920x1080px` or `1600x1200px` portrait). Default text: `WEARLAB / 01` .
Featured Products	• Overline Tag • Section Heading • Subtitle Description • "View All" Button	Curated showcase displaying your active release pieces. Default tag: `CURATED STREETWEAR` , Title: `DROP 01 — ESSENTIALS` .
Shop by Fit (4 Visual Cards)	• 4 Fit Card Titles • 4 Price Badges • 4 Destination Links • 4 Image Uploaders	Upload portrait model shots (`800x1000px`). Fits include: *Oversized Hoodie*, *Boxy Fit Tee*, *Cargo Pants*, *Varsity Bomber*.
Brand Statement / Story	• Overline Tag • Main Headline • Story Paragraph • "Discover" Button	Communicates the minimalist brand philosophy: "*NOT JUST CLOTHING. AN ATTITUDE.*" Links directly to your About page.
Collection Spotlight Banner	• Overline & Title • Body Description • Button Label & Link • Editorial Photo Upload	Highlights seasonal capsules (e.g. *Heavyweight Fleece Drop*, 420 GSM French terry). Ideal for driving sales to specific product lines.
Verified Customer Reviews	• Section Title & Overline • 3 Review Author Names • 3 Cities / Badges • 3 Testimonial Quotes	Builds crucial buyer trust across Pakistan. Pre-configured with customer testimonials from Lahore, Karachi, and Islamabad.
Newsletter & Final Call to Action	• Newsletter Title & Subtext • Final Banner Headline • Final Banner Button Link	Captures customer emails for drop notifications and drives immediate shopping action with high-contrast button styling.
Social Links & WhatsApp Concierge	• Instagram, TikTok, FB URLs • WhatsApp Support Number • Floating Widget Toggle	Enter your WhatsApp number (e.g. `+923001234567`). Controls the floating bottom-left chat bubble and all policy contact buttons.
Footer Settings	• Country / Currency Text • Copyright Notice	Default country: `PAKISTAN (PKR ₨)` . Year updates automatically.

03 EDITING WEBSITE PAGES & STORE POLICIES

All core content pages and legal policies are pre-written according to modern Pakistani e-commerce standards and consumer protection guidelines. They feature the intelligent **Smart Content Fallback Engine**.

> **HOW SMART CONTENT FALLBACK WORKS**
>
> - **Custom Content Entered:** If you write custom text or add images in **Pages** → **Edit**, the page immediately displays your custom text while retaining the hero header and styled policy sidebar navigation.
> - **Editor Left Blank:** If you clear the editor, the page automatically falls back to our professionally written default policy, complete with defect guarantees and WhatsApp concierge links.

POLICY	DIRECT URL	CORE RULES & GUIDELINES (OFFICIAL CLIENT CHARTER)
1. Shipping Policy	`/shipping-policy/`	• **Dispatch:** 1–3 business days after confirmation. • **Delivery:** 2–5 business days across Pakistan. • **Customized drops:** Additional time for custom printing & embroidery. • **Tracking:** Tracking IDs sent via WhatsApp and SMS. • **Address:** Customer responsibility for accuracy.
2. Return & Exchange	`/returns-policy/`	• **Window:** 7 days from receiving the order. • **Eligibility:** Damaged/defective pieces or wrong item/size sent. • **Condition:** Unused, unwashed, tags & packaging retained. • **Size swaps:** Subject to stock; customer covers courier fee. • **Customized items:** Non-returnable unless defective.
3. Privacy Policy	`/privacy-policy/`	• **Data collected:** Name, phone, email, address solely for orders. • **Protection:** 256-bit SSL encrypted checkout. • **Sharing:** WEARLAB never sells or rents customer data; shared only with delivery couriers & payment processors.
4. Terms & Conditions	`/terms-conditions/`	• **Product info:** High-accuracy descriptions & photos (screen variations note). • **Pricing:** Right to update prices & drops without notice. • **Cancellations:** Permitted before courier dispatch only. • **Availability:** Replacements/refunds if piece runs out.
Master Policies Hub	`/policies/`	All 4 policies unified on a single master page with anchor jump tabs and official brand signature: *WEARLAB • Designed in Pakistan • wearlab.store*.

How to Edit Any Page:

1. Navigate to **Pages** → **All Pages** in the WordPress dashboard.
2. Hover your cursor over the desired page and click **Edit**.
3. Type your content, add headings, or upload imagery in the editor.
4. Click the blue **Update** button at the top right to push your edits live.

04 PRODUCT CATALOG MANAGEMENT

WEARLAB is tailored for streetwear fashion drops. Garments typically have multiple sizes (S, M, L, XL), gallery image sliders, and inventory management.

Step-by-Step: Adding a New Streetwear Product

1 **Create Product Entry**

Go to **Products → Add New**. Enter the product title (e.g. "*Heavyweight Oversized Boxy Tee — Off Black*") and write the fabric composition (e.g. *100% 280 GSM Combed Cotton*).

2 **Upload Primary Photo & Gallery Slider**

In the right sidebar, click **Set product image** for the primary front view. Then click **Add product gallery images** to select back view, side fit, and fabric close-up photos. The theme automatically arranges these into an interactive swipeable slider.

3 **Configure Variable Sizes (S, M, L, XL)**

Under **Product Data** (below description), change dropdown from *Simple product* to **Variable product**. Click **Attributes → Add**: Name: `Size` | Values: `S | M | L | XL`. Check "*Used for variations*" and click **Save attributes**.

4 **Set Prices & Stock for Each Size**

Click the **Variations** tab → **Generate variations**. 4 size cards will appear. Enter the price (e.g. `3490`) and set stock status to *In stock* for each size.

5 **Publish Product**

Select the category (e.g. *T-Shirts*) in the right panel and click the blue **Publish** button. The piece is immediately live on your store.

Sale Discounts & Badges

To put an item on sale, enter a **Sale Price (PKR)** alongside the Regular Price. The theme automatically displays a stylish `SALE` badge on the product card and strikes through the old price.

05 ORDER MANAGEMENT & CASH ON DELIVERY (COD) PROTOCOL

Cash on Delivery (COD) is the primary payment model for Pakistani e-commerce. To maintain high fulfillment rates and minimize Return-to-Origin (RTO) courier costs, follow this standardized order protocol:

1. **New Order Received (Status: Processing)**
   Customer places order on `wearlab.store`. Both customer and store receive instant order confirmation emails. Order appears under **WooCommerce → Orders**.

2. **Customer Address & Size Verification Call / WhatsApp**
   Before packing, contact the customer on WhatsApp or phone: *"Assalam-o-Alaikum [Name], this is WEARLAB confirming your order #75 for [Product Name], Size [M], Total PKR 3,490 to [Delivery Address]..."*

3. **Packaging & Courier Portal Booking**
   Inspect garment, pack in WEARLAB branded poly mailer. Log into your courier portal (**PostEx, Trax, Leopard, or TCS**), generate courier consignment note (CN), and affix airway bill.

4. **Update Order Status to "Completed"**
   In WP Admin, open the order and change status to **Completed**. Add courier tracking number into customer order notes so the customer is notified.

5. **Doorstep Cash Collection**
   Courier rider delivers parcel and collects exact cash in PKR. Courier deposits COD funds into your business bank account within 24–48 hours.

Order Status Definitions:

STATUS	WHEN TO USE
Processing	Default status when a COD order is placed. Awaiting phone verification and dispatch.
On Hold	Use if customer phone is switched off or address details are incomplete.
Completed	Parcel packaged, airway bill booked, and package handed over to courier.
Cancelled	Customer requested cancellation prior to courier handoff.

06 CUSTOMER ORDER CONFIRMATION EMAILS (HOSTINGER SMTP)

To ensure that order confirmation emails reach customers' **Inboxes** directly (and are never flagged as Spam by Gmail/Yahoo), your store connects to your official Hostinger Titan Mail server via **WP Mail SMTP**.

CONFIGURATION FIELD	REQUIRED VALUE
From Name	`WEARLAB` (Check *Force From Name*)
From Email	`orders@wearlab.store` (Check *Force From Email*)
Mailer Type	Select **Other SMTP**
SMTP Host	`smtp.hostinger.com`
Encryption	`SSL`
SMTP Port	`465`
Auto TLS / Authentication	Both set to **ON**
SMTP Username	`orders@wearlab.store`
SMTP Password	Your Hostinger Titan Email password

> **TESTING EMAIL DELIVERY**
>
> After saving settings, click the **Email Test** tab at the top of WP Mail SMTP. Enter your personal Gmail address and click **Send Email**. You will receive an immediate confirmation email from `WEARLAB <orders@wearlab.store>`.

07 NAVIGATION MENUS & FOOTER LINKS CONFIGURATION

Manage all website menus easily under **Appearance** → **Menus**:

- **Primary Navigation:** Controls the top header navigation (Shop, New Arrivals, About, Contact). Drag and drop pages to rearrange; indent an item slightly to create a sub-menu dropdown.
- **Footer Shop Menu:** Links to key product collections (T-Shirts, Hoodies, Best Sellers).
- **Footer Support Menu:** Customer service links (FAQ, Contact Us, Track Order).
- **Footer Legal Menu:** Legal compliance links (Exchange & Returns, Shipping, Payment, Privacy, Terms).

08 LOGO, FAVICON & BRAND IDENTITY MAINTENANCE

To update brand visuals, navigate to **Appearance → Customize → Site Identity**:

- **Main Logo:** Upload your primary horizontal WEARLAB logo (transparent PNG or SVG recommended, width between `180px` and `260px`).
- **Site Icon (Favicon):** Upload a square `512x512px` icon. This appears in browser tabs, mobile bookmarks, and search snippets.

09 DISCOUNT COUPONS & PROMOTIONAL CAMPAIGNS

Create discount codes for influencer drops, seasonal sales, or promotional campaigns:

1. Go to **Marketing → Coupons → Add coupon** in the left sidebar.
2. Enter the coupon code (e.g. `DROP10` or `FIRST500`).
3. Choose **Discount type**: *Percentage discount* (e.g. 10%) or *Fixed cart discount* (e.g. PKR 500).
4. Under **Usage restriction**: (Optional) Set a minimum spend (e.g. PKR 5,000) or exclude sale items.
5. Click **Publish**. Customers can apply this code at checkout for instant price deduction.

10 STORE LAUNCH & DAILY OPERATIONS CHECKLIST

Before launching marketing campaigns, complete this final readiness checklist:

- ☐ **Upload Real 5 Products:** Add actual streetwear inventory with sizes S, M, L, XL and PKR pricing.
- ☐ **Upload High-Resolution Imagery:** Ensure front, back, and lifestyle model shots are attached to each product.
- ☐ **Connect WhatsApp Concierge:** Enter your active WhatsApp Business number in Appearance → Customize.
- ☐ **Verify Hostinger SMTP:** Send a test email from WP Mail SMTP to confirm instant inbox delivery.
- ☐ **Connect Courier COD Account:** Set up API or merchant portal with PostEx, Trax, or Leopard Courier.
- ☐ **Install Meta Pixel / TikTok Tag:** Install *PixelYourSite* plugin for Facebook & TikTok conversion tracking.
- ☐ **Upload Favicon:** Upload square 512x512 brand icon in Appearance → Customize → Site Identity.
- ☐ **Test Place a Live Order:** Order 1 test item on `wearlab.store` using COD, verify email receipt and WhatsApp flow.
